

# 30A LACROSSE

**TURF TANK®**

**30A Lacrosse Club creates consistency and paints fields 4x faster with the Turf Tank robot**

## CHALLENGE

**Inconsistency within their league:** different clubs, different field dimensions

**Manual marking:** a nightmare to prepare all the fields in time for the game

## SOLUTION

**December 2021:** Turf Tank line marking robot to automate the field painting process

### RESULTS:

#### CONSISTENCY

- GPS technology = All fields have the same sizes across the league
- Perfect lines every time

#### EFFICIENCY

### Painting a lacrosse field:

PAST	TURF TANK®
 <b>3</b> hours	 <b>45</b> minutes

### Preparation for a Sunday game:

6 FIELDS: 3 FULL-SIDED + 3 SHORT-SIDED

PAST	TURF TANK®
 <b>12-16</b> hours	 <b>2</b> minutes setup <b>4</b> hours just the robot painting

### Time saved for other tasks

**45 MIN**

to paint a lacrosse field

**4X FASTER**

preparation for events

**100%**

consistency every time

*Once I saw it demoed, it made so much sense to me, and what a huge time savings it was going to be because when it came down to it, the time savings was really everything.*

**Jameson Hansen, President and Founder, 30A Lacrosse**
