

TAMPA BAY UNITED

TURF TANK®

How Tampa Bay United raises the standard of the club with robot-created lines

Tampa Bay United is a soccer club in Tampa, Florida, dedicated to the development of soccer players that houses over 3,000 players in 100 competitive teams and 150 recreational teams, from U6 all the way up to U19 age groups, at all levels of play.

CHALLENGE

14 full size soccer fields to maintain spread over two facilities

30-50 games played weekly

Weekly line marking

Manual marking = inefficient process

SOLUTION

2021: Tampa Bay United got their own Turf Tank line marking robot to automate the line marking process

PAST

3 people

1 hour marking

stress

crooked lines

TURF TANK®

1 person

25 minutes autonomous marking

2 minutes setup

perfect lines every time

I would highly recommend the robot to other USL clubs. It makes you a more professional organization. When you can lay out your fields that look like a pro club, it sets you apart from other clubs in your area.
