

Electronics technician wanted!

Full-time job

Vacancies: Svenstrup J

We all love to watch a great match, but what would be sports without the lines on the fields? Our mission is to help sports organizations, from small clubs and schools to elite stadiums, create impeccable fields where players from most sports can display their skills and talent.

Want to join us?

We are looking for an electronics technician in our development team to help us develop our products and underlying technology. You will work with some of the best sports organizations, and you will have the power to improve their facilities by introducing them to the newest technology in robot aided field painting and maintenance.

What you'll do

- R&D of electronics solutions for line marking robots.
- Maturing Turf Tank's products in accordance with the applicable quality system.
- Ensuring that Turf Tank's products are developed, verified, and validated in accordance with defined requests.
- Design for manufacturing and supporting our production staff during product assembling.
- Cooperate with external partners on PCB design and prototypes.
- Testing robots
- Customer support

Who you are

- Team player
- You are self-driven, result-oriented, and very hands-on
- Knowledge of design of industrial-grade electronics capable of operating in harsh conditions.

- Experience working with sensors and actuators.
- Experience in managing subcontractors, suppliers & external partners.
- Experience with Altium Designer is a plus

What we offer

- The chance to have a significant impact on the development department.
- The opportunity to influence, decide and take action in a diverse team spanning many disciplines.
- Excellent career opportunities in a fast growing company.
- The chance to define the architecture for our next-gen robots and only work with the latest technologies.
- Location is at our headquarters in Svenstrup J, Denmark.
- Salary based on qualifications and experience.

For more information please don't hesitate to contact our Team Lead Hardware, Michael Arent Tingleff (Michael.tingleff@turftank.com).
