SOMERSET, ENGLAND

Marking a New Era: How Taunton School Transformed Grounds Management with Turf Tank

Taunton School, located in Somerset, England, is a prestigious educational institution that prides itself on offering a wide range of activities to engage its students. With a commitment to continuous improvement, the school has recently invested in new facilities around campus, including improvements to their sporting facilities.

CHALLENGES:

- ▶ Too much time spent marking
- ▶ Marking is too labour-intensive
- ▶ Often resulted in inconsistent line markings

SOLUTION:

2023: Streamlining the pitch marking process with Turf Tank robot to focus on enhancing the overall standards of the school's outdoor facilities.

MARKING A RUGBY PITCH:

PAST	TURF TANK®
Three people 	One person 
3-4 hours 	40 minutes robot painting 
Inconsistent lines 	Perfect, crisp lines every time 

**MASSIVE TIME SAVING.
HALVED OUR PAINT COSTS.
ARROW STRAIGHT LINES.**

Mark Jolliffe,
Head Groundsman, Taunton School

“ Marking a rugby pitch out, it could take three to four hours for three people to mark that pitch from scratch, whereas the Turf Tank does it in about 40-45 minutes.

BETTER LINES & STANDARDS:

- ✓ Free up time to work on other more pressing tasks on the field
- ✓ Less time spent on marking, more time toward enhancing the facility's standards
- ✓ Save on time, paint and labor
- ✓ Mark lines without stress with perfect results every time
- ✓ Utilize the robot for marketing with designs and logo painting
